The project is co-financed under

**Operational Program Knowledge Education Development (PO WER)**

Transnational mobility of students and graduates  
and vocational training staff.

Project no : POWER VET-2018-1-PL01-KA102-049857

- 
- Key Action: Learning Mobility (KA1);
  - Action: Learners and Staff Mobility in Vocational Training (KA102);
  - project implemented at the Technical University of Energy in Poznań in the period September 2018 - December 2019.
  - Mobility organized for 2 groups of 21 participants with 2 guardians.
  - 4-week internship of each group.

# Preparations

- English course,
- historical and cultural preparation.

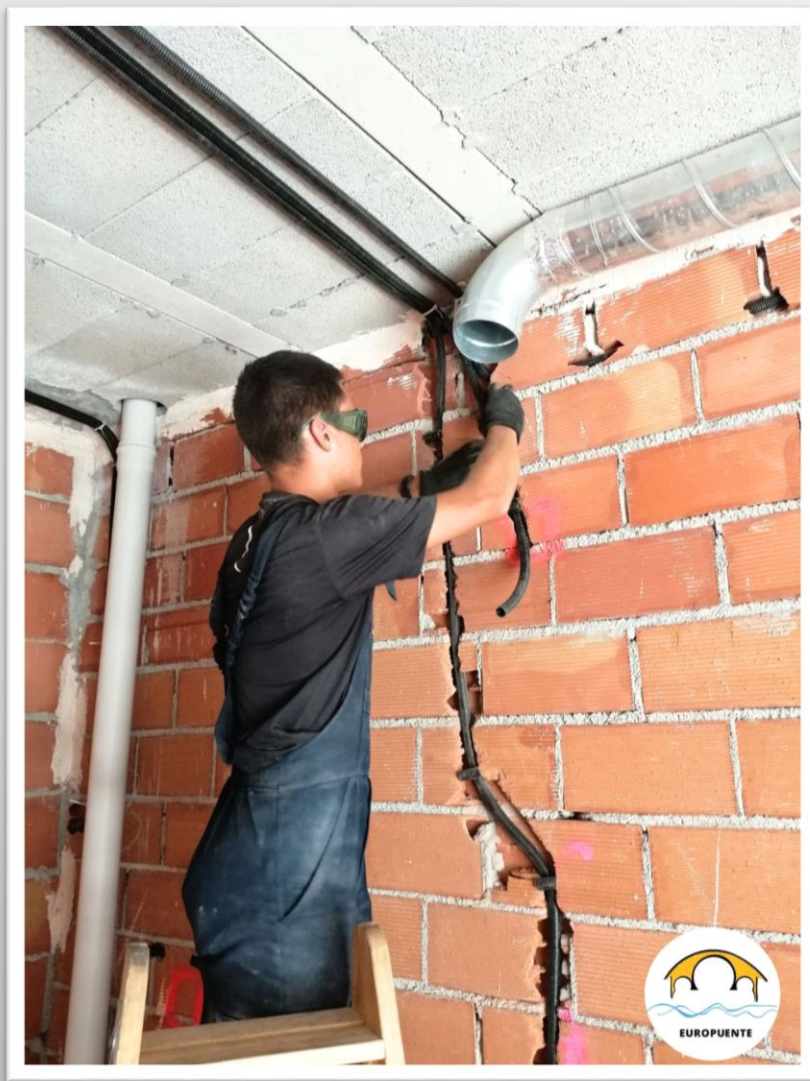

The classes were conducted by the teaching staff of the Energy Technical School.

# Work

- As part of the internship, each intern worked 160 hours.
- The allocation of interns to workplaces took into account their field of education and preferences.
- The interns performed designated work under the supervision of experienced and qualified personnel.

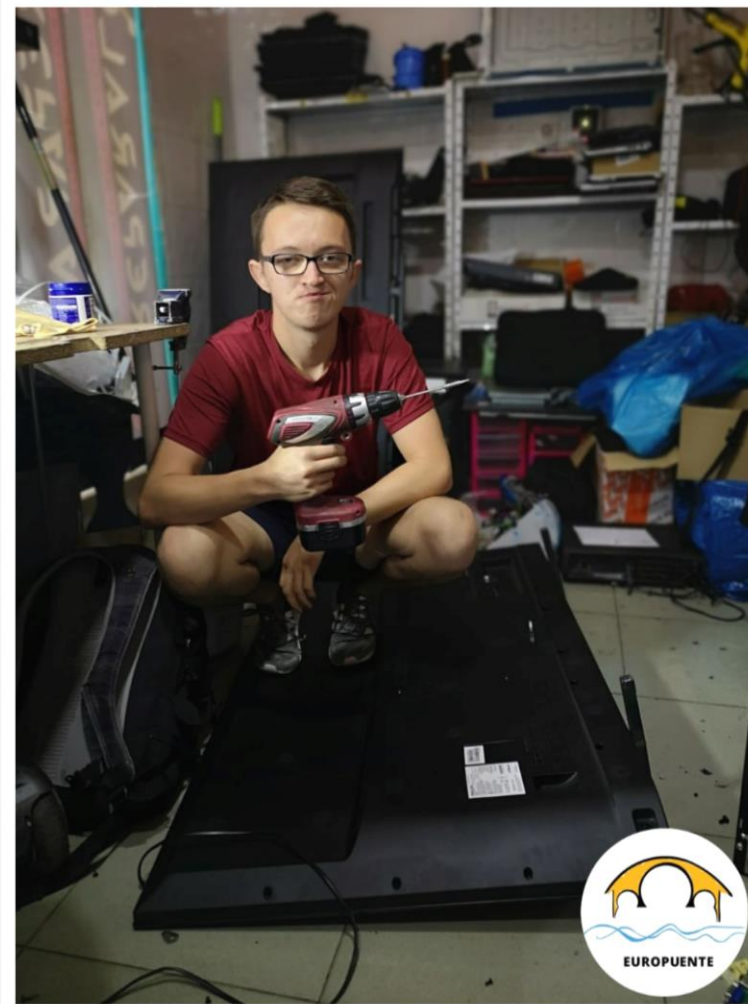

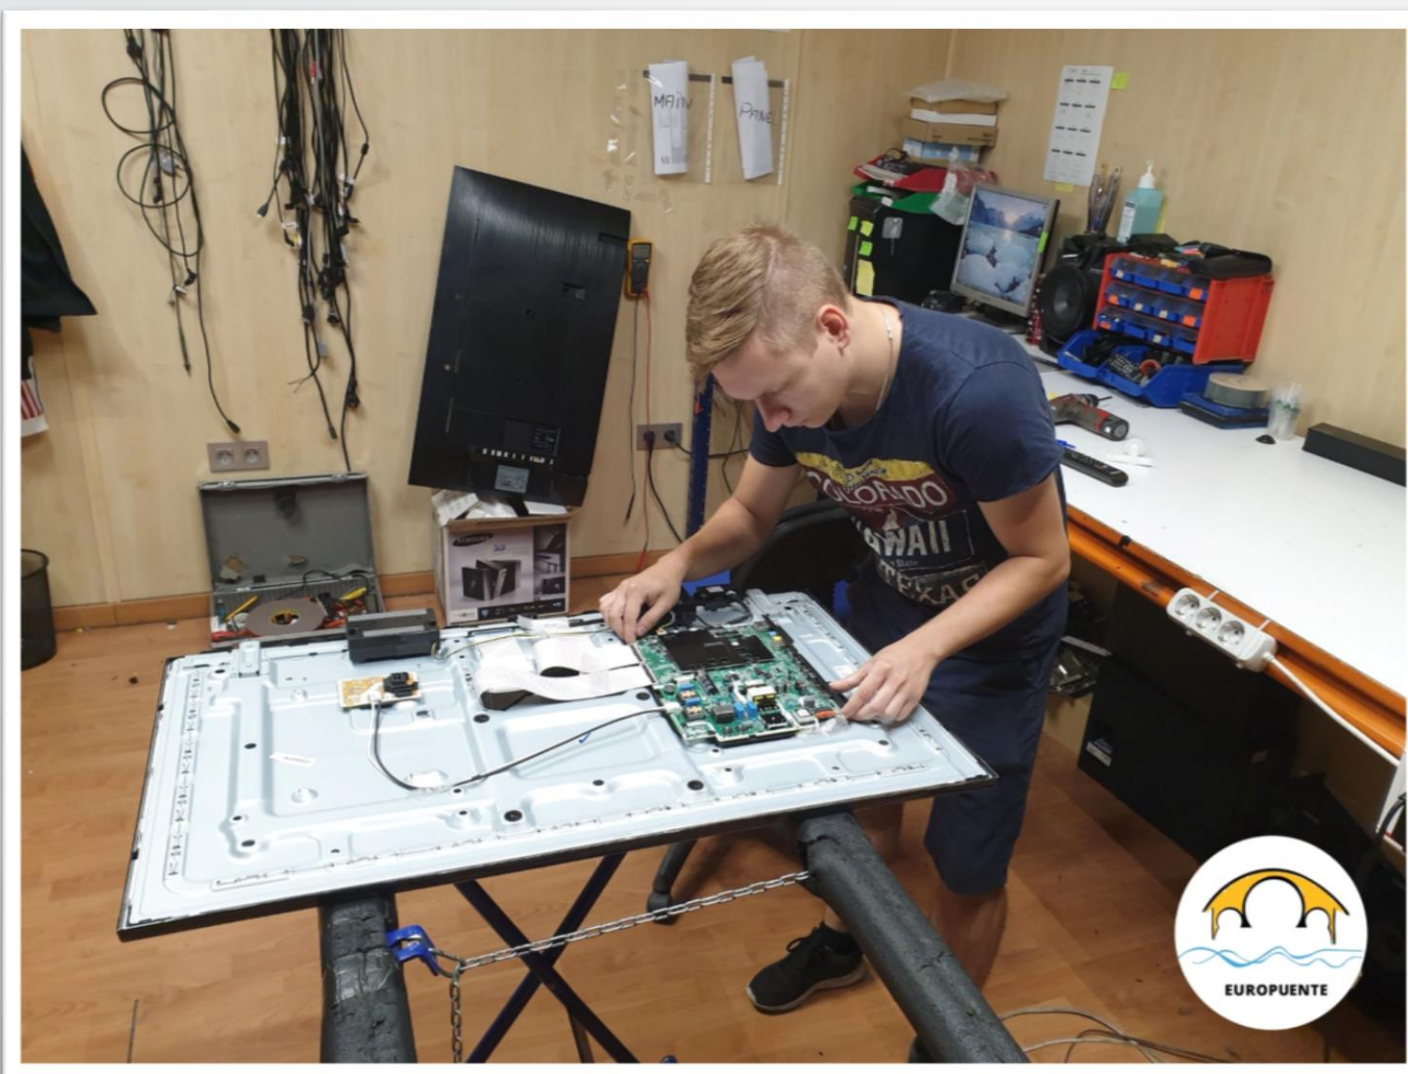

# After work

- The mobility involved getting acquainted with the region of its implementation.
- The afternoons and weekends were spent on excursions around the city and outside Granada.
- There is free time for individual use.

# Kurs j. hiszpańskiego

(przeprowadzony przez Pamelę Cortesas)

# Summary of the project

Students conduct an action to disseminate the project.

It consists of:

- familiarizing students of the younger branches of the Technical School with the course of the project;
- publicizing the information project outside the school - at universities (graduates).
